

YEAR 7 HOMEWORK TIMETABLE 2023-24

2 20 minute homework per evening.

The homework timetable is designed to help students manage their time, suggesting an even spread of homework through the week. On each day there is a “core” subject homework, and at least one other task. The homework will often be on the day of the subject lesson, but to achieve an even spread through the week this is not always the case. Teachers will set tasks with enough time to ensure that this timetable can be followed.
