Dear Parent/Carer

Re: Cambridge National Engineering Design (OCR)

We are really pleased that your son/daughter has continued to study OCR Engineering Design. Throughout the course, students will complete focused activities using Solid works on the computer and will also complete focused practical tasks in the workshop such as making a handheld maze game.

I am pleased to say that we can offer Engineering Revision packs available for the purchase cost of £20. The pack consists of 2 books - *My Revision Notes, Cambridge National Level 1/Level 2 Engineering Design* by Hodder and also *Cambridge Nationals Exam Practice Work Book*.

It is worth mentioning that the £20 also contributes towards the cost of materials for the manufacturing tasks throughout the year.

Payments can be made online via Arbor and packs collected from the Student Reception. We don't expect contributions from students receiving Free School Meals.

Yours sincerely

Mr J Batchelor
Head of D&T Department
