Dear Parents/Carers

Year 10 PSHE - Consent

On Friday 6 October your child's year group will be having a PSHE lesson in period 1. This letter is to let you know the content of the lesson and assure you we use a specialist team of teachers to teach the more sensitive areas to our students.

Please could you let the school know if you feel your child may have any issues with the content of the lessons. All subjects are taught in a sensitive way and no student is asked to share any personal information about themselves, their wider families or circumstances. Also, if you are aware that your child is anxious around change to their routine could you talk the changes through with them.

If you have any feedback either from yourself or from your child please don't hesitate to email me as this means that we can continue to develop an enriching and relevant PSHE programme.

Also if you would like to be involved in a parental group looking at the provision we provide for SRE (Sex and relationship Education) again please get in touch.

The subject of the lesson is:

Consent

The learning objectives are:

- What consent is and why it is so important
- The law with regard to age, sex and consent
- How to access support in and out of school linked to consent
- What the law is around sending nudes and consent.
- Revenge porn – the law.

Kind regards

Mr M Wilkins
