

8 July 2021

Dear Parent/Carer

Firstly, we hope your child has enjoyed their maths lessons this year, has made good progress and begun to see how important maths is for their future ambitions. We have been lucky this year to have Manga High at our disposal and we hope your child has enjoyed using Manga High for homework as well as in tutor time to contribute towards the house trophy and be in with a chance of winning a prize in the termly maths achievement assembly.

At the start of this year, your child was put into a maths set based on a teacher comment from primary school. They may have then moved classes after the autumn assessment depending on how they did. As we have now completed the summer assessment, we have used this data to set your child for next year, therefore, when your child receives their timetable for the next academic year, please do look to see if they have moved sets. The summer assessment assessed the majority of what your child has learnt this year in maths and so gives us the most accurate reflection of the level they're working at and allows us to set accordingly. This means your child will be taught at a pace that suits them, allowing them to progress as much as possible.

If you have any concerns about your child moving set, please do get in touch and we can answer or clarify any questions.

Yours sincerely

Mr George
Second in Charge of Maths
